1. Introduction

This document is intended to guide users through the usage and management of the International Student Exchange Application. This platform was developed to simplify and streamline the process of managing student exchange programs, with a focus on usability for both students and administrative personnel.

The application was created following a collaborative design approach. Our team began by analyzing solution proposals from three separate student teams. We extracted the most valuable features and combined them into a unified prototype, which was presented to and approved by the client before development began. The development process followed the Scrum methodology with iterative sprints, continuous feedback loops, and regular reviews to ensure alignment with client expectations.

2. Prerequisites & System Requirements

To ensure the International Student Exchange Application runs smoothly, please verify the following system requirements:

- Operating System: Any modern OS (Windows 10+, macOS 11+, Linux)
- Web Browser: Latest version of Google Chrome, Mozilla Firefox, or Microsoft Edge
- Internet Connection: Required for accessing the application and all its features
- Display Resolution: Minimum 1280x720 recommended for optimal layout
- User Access: A valid user account (provided by your administrator)

Note: No software installation is required, as the application runs entirely in the browser.

3. Installation & Setup

No installation is required to use the International Student Exchange Application, as it is fully web-based.

1. To get started, follow these steps:
2. Open a web browser (e.g., Chrome, Firefox, Edge).
3. Navigate to the application's URL:
[\[https://integratedportal.skibuddy.be/dashboard\]](https://integratedportal.skibuddy.be/dashboard).
4. (Optional) Log in using any of the credentials provided by your administrator.

Note: For optimal performance, we recommend using the latest version of Google Chrome or Mozilla Firefox.

4. Quick Start / Getting Started

To get started quickly:

1. Log in using the credentials provided.
2. Navigate to the dashboard.

5. Features & Functionality

Key modules in the system include:

- **Authentication & Role-Based Access:** Secure login for students and administrators, with access control.
- **Student Dashboard:** A personalized space for viewing applications, updates, and tasks.
- **Admin Panel:** Allows exchange program management, application reviews, and student communication.
- **Exchange Tracking:** Enables both students and staff to monitor the status and history of student exchanges.
- **Notifications & Reminders:** Automatic alerts for deadlines and approvals.

6. User Interface Walkthrough

6.1 Public Student View

The **Public Student View** serves as the landing page for prospective international students. It provides a clear, user-friendly overview of the application process without requiring login credentials.

Key features available in this view include:

- **Submit Application Form**
Allows students to begin the application process by sending their completed form to the international office.
- **File Assessment**
Enables students to upload or submit additional supporting documents if not already provided.
- **Blocked Account**
Displays the status of financial solvability if the blocked account option is selected and approved.

- **Receive Registration Certificate – Financial Attestation**
Students can request and download official documentation proving their registration and financial eligibility.
- **Apply for a Student Visa**
Offers guidance and a submission option for starting the student visa application process.
- **Complete Registration through the Portal**
Finalizes the student's application process through the designated platform steps.

At the bottom of the page, an **important deadline notice** is displayed to inform users of key dates:

General Application Deadline: Beginning of June for FALL and End of November for SPRING

This view helps users understand the steps involved and initiate actions before signing in, making the process more transparent and accessible.

6.2 Public Home Institution View

The **Public Home Institution View** serves as the landing page for prospective institutions who would like to send one of the students to Thomas More. It provides a clear, and very expandable view showing all the options they can perform without having to use login credentials.

Key features available in this view include:

- **Register Home Institution**
Allows Home Institutions that want to work with Thomas More request an account in the application, through which they will be able to send their students.

At the bottom of the page, an **important deadline notice** is displayed to inform users of key dates:

General Application Deadline: Beginning of June for FALL and End of November for SPRING

This view helps users understand the steps involved and initiate actions before signing in, making the process more transparent and accessible.

6.3 Public Homeowner View

The **Public Homeowner View** is the starting point for individuals or organizations interested in offering accommodation to international students at Thomas More. It presents a simple, approachable interface where homeowners can begin the onboarding process without needing to log in.

Key feature available in this view:

- **Register as a Homeowner**
Allows potential homeowners to request an account in the platform. Once their account is approved, they will be able to offer housing options, manage property details, and communicate with students through the platform.

At the bottom of the page, an **important deadline notice** is displayed to keep homeowners informed of key academic calendar dates:

General Application Deadline: Beginning of June for FALL and End of November for SPRING

This public view ensures that interested homeowners can quickly get started and understand the value of joining the platform, all without requiring prior access or credentials.

6.4 Public Buddy View

The **Public Buddy View** is designed for current Thomas More students who are interested in supporting incoming international students as they transition to campus life. This view provides a welcoming and informative entry point for potential buddies to learn about the role and sign up, without needing to log in.

Key feature available in this view:

- **Register as a Buddy**
Enables Thomas More students to request an account as a buddy. Once approved, they will be matched with incoming international students and can offer guidance, help them navigate student life, and foster cultural exchange.

At the bottom of the page, a **deadline notice** reminds students of important application periods:

General Application Deadline: Beginning of June for FALL and End of November for SPRING

This view encourages student involvement and simplifies the process of becoming a buddy, helping create a welcoming environment for newcomers from the very first step.

6.5 Student Dashboard

The **Student Dashboard** provides a centralized interface for international or exchange students to easily navigate and access essential services. From this dashboard, students can:

- **Enroll in courses** by submitting a form.
- **Rent a bike** using a quick request form.
- **Apply for housing** with a simplified application process.
- **Request a buddy** through the *Public Buddy View*, allowing them to connect with local students for guidance and support.
- **Connect and ask** questions to coordinators or fellow students.
- Access **student guides** with helpful information.

Each option includes a short description and a clearly labeled "View" button for easy navigation. The lower section also contains an expandable **FAQ** area, helping students find quick answers to common questions (e.g., registering at town hall, opening a bank account, renting a bike).

This layout ensures a smooth and user-friendly experience for new students settling in.

6.6 Landlord Dashboard

The Landlord Dashboard offers a streamlined interface for property owners to manage their student accommodations with ease and efficiency. From this centralized dashboard, landlords can:

- **Add New Properties** with a user-friendly form that captures all essential details including address, room count, and photos.
- **View Listed Properties/rooms** with summaries displaying name, number of rooms, and location. Each listing includes an image and direct access to edit or manage the property.
- **Manage Inquiries** from interested students, allowing quick responses and tenant tracking.
- **Edit or Remove Listings** to keep information up to date or adjust offerings as needed.
- **View Feedback or Reviews** left by tenants, helping improve the service and trustworthiness of the rental offering.

Each property card includes a photo, brief details, and an easy-access "Manage" or "View" button. The right-hand section contains a prominent "Add Property" button for quick listing additions.

This layout ensures landlords have full visibility and control over their property offerings while maintaining a clear and intuitive interface.

6.7 International office Dashboard

The International Office Dashboard is designed to support administrators in efficiently managing key services and resources for incoming international students. From this central hub, staff members can:

- **Organize a Webinar** to inform and welcome incoming students. This section includes tools for scheduling, managing attendance, and sharing webinar resources.
- **Manage Nominations** by adding, updating, deleting, or viewing nominated students from partner institutions.
- **Manage Guides** by uploading and maintaining informational materials tailored to help students transition smoothly into life at the institution.
- **Approve Home Owners** by reviewing and authorizing landlords and their properties before they appear on the student housing platform.

Each module is presented as a distinct card with a short description and a clearly labeled “**View**” button for fast access. The top menu provides additional navigation options, while the footer ensures users can quickly find policies and contact information.

This dashboard ensures that international office staff can coordinate student support efforts effectively, maintaining high standards of service across all touchpoints.

6.8 Home Institution Dashboard

The Home Institution Dashboard is tailored to support coordinators from partner institutions in managing outgoing exchange students and ensuring smooth collaboration with the host institution. Through this interface, coordinators can:

- **Sign OLA (Online Learning Agreement)** to digitally review and approve learning plans for nominated students, ensuring academic alignment and formal exchange authorization.
- **Nominate Students** for exchange by submitting their details, academic background, and study plans to the host institution.

The dashboard includes a clean and simple card layout, where each function is described briefly and includes a clearly labeled “**View**” button for fast navigation.

A collapsible **FAQ section** beneath the main actions offers answers to common questions such as:

- What is an OLA?
- Based on what is a student nominated?
- How should I inform the student about the nomination?
- What does the OLA consist of?

This user-friendly interface simplifies key tasks for home institution staff, ensuring a smoother nomination and exchange preparation process.

6.9 Coordinator Dashboard

The Coordinator Dashboard is the central hub for academic or administrative coordinators overseeing the exchange and mobility processes at Thomas More. This comprehensive interface equips coordinators with tools to manage both student processes and buddy systems efficiently.

Key available actions include:

- **Approve Course Enrollments:** Review and validate the selected courses of incoming students.
- **Approve Nomination:** Confirm student nominations initiated by home institutions or internal processes.
- **Manage Student:** Oversee student records, profiles, and mobility details.
- **Sign OLA (Online Learning Agreement):** Electronically approve the student's study plan, ensuring academic coordination.
- **Incoming Students:** View and track all incoming exchange students under their supervision.
- **Connect and Ask:** Interact with students by responding to inquiries or engaging in discussion threads.
- **Approve Buddies:** Validate and register local student buddies to assist incoming students during their stay.

Each function is represented by a dedicated card with a short description and a "**View**" button for immediate access, fostering a highly navigable and intuitive user experience.

6.10 Admin Dashboard

The Admin Dashboard is the control center for high-level administrative users who oversee the structural and user management aspects of the platform. It provides critical functionalities to maintain and govern the system effectively.

Key available actions include:

- **Manage Programs:** Create, edit, or remove academic programs and their corresponding courses.
- **Manage Users:** Administer platform users, assign roles (e.g., coordinator, international office, buddy), and handle permissions.

This dashboard offers a minimal and focused interface, reflecting the admin's primary responsibilities: ensuring the system's integrity and user-role structure.

7. Common Workflows / Use Cases

7.1 Universal across users & public

7.1.1 Login

1. Fill in the **credentials** for the account you wish to log into.
2. Click the **sign in** button.

You will be sent to the dashboard of your respective account.

Worked on by **Ahmed Ahmed**

7.1.2 View homepage

[Submit application form](#) [Sign OLA](#) [Course enrollment](#) [More](#) ▾

1. Click on the **logo**.

[Submit application form](#) [Sign OLA](#) [Course enrollment](#) [More](#) ▾

Dashboard

 Course enrollment Submit a form to get enrolled in a specific course View	 Connect and ask Ask a quest to a coordinator or fellow students View
 Rent a bike Fill in a form to rent a bike View	 Apply for housing Send an application to rent out a house View
 Apply for a buddy If you want to have a buddy, fill in the form View	 Buddy Approval Approve a buddy that has been assigned to you. View

You will be sent to the **dashboard** of your respective account.

Worked on by **Alex van Poppel**: The dashboards all use the same link and dynamically adapt to which user type is viewing it.

7.1.3 Apply as buddy

1. Click on the **"HomePage"** button in the header on the login page.

You will be sent to the **public** dashboard.

2. Select the **"Buddy View"** in the dropdown menu beside the login button.
3. Click on **"Register as a buddy"**.

4. Enter all the **information** for the account you wish to make.
5. Click the “**Submit**” button.

7.2 Home Institutions

7.2.1 Nominate student

1. Click on the “**Nominate student**” button.

The screenshot shows the THOMAS MORE dashboard. At the top, there is a navigation bar with the THOMAS MORE logo, links for 'Sign OLA' and 'Nominate student', and a user profile icon labeled 'home_institution test'. Below the navigation bar is a 'Dashboard' section with two main cards. The first card is titled 'Sign OLA' with a pencil icon and the text 'Sign the online leaning agreement'. The second card is titled 'Nominate student' with a graduation cap icon and the text 'Nominate who will be able to go on exchange'. Both cards have a 'View' button. Below the dashboard is an 'FAQ' section with four expandable questions: 'What is an OLA?', 'Based on what is a student nominated?', 'How should I inform the student about the nomination?', and 'What does the OLA consist of?'. At the bottom is an orange footer bar containing links for 'Cookie Policy', 'Terms of Use and Privacy', and 'Contact', along with social media icons.

2. Enter all the **information** for the **nominated** student.

The screenshot shows the THOMAS MORE nomination form. At the top, there is a navigation bar with the THOMAS MORE logo, links for 'Sign OLA' and 'Nominate student', and a user profile icon labeled 'home_institution test'. Below the navigation bar is a 'Nomination Form' section. The form contains six input fields: 'Full Name of Home Institution', 'Erasmus+ Code', 'First Name of Nominee', 'Last Name of Nominee', 'Email of Nominee', and 'Study Field at Thomas More' (a dropdown menu). A 'Submit' button is located at the bottom right of the form. At the bottom is an orange footer bar containing links for 'Cookie Policy', 'Terms of Use and Privacy', and 'Contact', along with social media icons.

3. Click on the “**Submit button**”

The application is being **processed** and is **awaiting** approval.

Worked on by **Favour Chinyere Okoye**

7.3 International Office

Worked on by **Fanni Véh**: As asked by our client, the removed courses will not be deleted, only made “inactive” and can be brought back with a click.

8. Troubleshooting

Common Issue: Login fails

Solution: Verify internet connection and credentials. Contact support if the issue persists.

Common Issue: Form submission fails

Solution: See if any error message appears on screen. If not Verify internet connection. Contact support if the issue persists.

9. Frequently Asked Questions (FAQ)

Q: How do I reset my password?

A: Click on the **"Forgot Password"** link on the login page. Enter your email and follow the instructions to reset your password.

Q: How do I nominate a student for exchange?

A: Go to the **Nominate Student** tab in your dashboard, fill out the required student details, and submit the form.

Q: What is an OLA?

A: OLA stands for **Online Learning Agreement**. It outlines the academic plan for exchange students and needs to be digitally signed by the student, home institution, and host institution.

Q: How can I approve a student's course enrollment?

A: In the **Coordinator Dashboard**, click **"Approve Course Enrollments"**, review the submitted courses, and select **Approve** or **Reject**.

Q: Who can manage guides for incoming students?

A: Only users with **International Office** access can create, update, or assign guides for incoming students.

Q: How do I approve or manage buddies?

A: In the **Coordinator Dashboard**, go to **"Approve Buddies"** to view applications and approve or decline potential buddies.

Q: How do I contact support?

A: Click on **"Contact"** in the footer of any page. You can also use the in-platform chat icon (bottom-right) to get immediate assistance.

Q: Can I change the role of a user?

A: Yes, if you have **Admin** privileges. Go to **"Manage Users"** and update the user's assigned role.

Q: How do I update a program or course?

A: Only **Admin** users can do this. Go to **"Manage Programs"**, search for the program, and click **Edit** to update details.

10. Maintenance & Updates

Since the exchange portal is a web application, updates are handled server-side. To ensure you're using the latest version, follow these guidelines:

- Check for Updates:
 - The latest version of the exchange portal will be automatically available when you access the application through your browser.
- Automatic Updates:
 - As a web application, updates are applied by the development team on the server. You do not need to download or install anything manually.
- Clear Cache (if necessary):
 - Occasionally, clearing your browser cache may be required to load the latest features or fixes. This can be done through your browser settings.
- Post-Update:
 - After an update, refresh your browser to ensure all changes are properly loaded. If you encounter any issues, try clearing your cache or contacting support for assistance.

11. Appendices

A. Project Overview

This application was developed to centralize and simplify the process of managing international student exchanges. It was designed by merging the strongest aspects of three initial team solutions into a single prototype. Upon client approval, development began using the Scrum methodology.

The system was built using Laravel with Livewire for dynamic component handling, Tailwind CSS for responsive styling, and Git/GitHub for source control and collaboration. Design and prototype review was done in Figma. Throughout development, continuous feedback from the product owner helped shape the application's usability and feature scope.

B. Development Summary

We operated in sprints, with each cycle focused on core areas such as authentication, student dashboards, and admin functionality. We encountered challenges in merging differing design perspectives, which were resolved through structured discussions and continuous feedback. As of this writing, we are in the final sprint, addressing bug fixes and polishing the user experience.
